

INFORMATION SECURITY POLICY

INTRODUCTION

The Office of the Police and Crime Commissioner (OPCC) relies on computer systems which are maintained and supported by staff under the direction and control of the Chief Constable. In connection with this the OPCC will adopt, by default, the West Yorkshire Police Information Security Policy Statement and associated procedures.

VETTING

All OPCC staff will be vetted to a minimum of 'management level'.

MONITORING

WYP (Information Security Officer and Professional Standards Department) will monitor the use of IT systems. Breaches of security procedures will be raised with the Chief Executive of the OPCC.

The OPCC will be responsible for granting permission to the OPCC shared drive. This will be for named officers in the force and is for the purpose of supporting the use of force systems. Breaches of this access agreement will be reported to the Chief Executive.
